How can data sharing across child- and family-serving systems be implemented effectively?

Collaboration Between Systems and Coordination of Services · https://bridges4mentalhealth.org/hub/collaboration-between-systems-coordination-of-services/how-can-data-sharing-across-child-and-family-serving-systems-be-implemented-effectively/

Casey Family Programs emphasizes that effective data sharing between child welfare and mental health systems is essential for addressing complex family challenges. Implementing such data sharing involves building strong interagency relationships, developing secure data transfer protocols, and creating comprehensive agreements. Starting with small, manageable projects can lay the groundwork for larger, more complex collaborations in the future.
