Trauma Screen Time Training

Access to Mental Health Services · https://bridges4mentalhealth.org/hub/access-to-mental-health-services/trauma-screen-time-training/

Trauma screening is an essential initial step in linking children and families affected by trauma to supportive services and resources. It can also encourage meaningful conversations with children and families about trauma in a compassionate and constructive manner. This training is intended for professionals in child-serving systems and provides best practices for trauma screening. The goal is to help child-serving staff identify and support children suffering from traumatic stress as early as possible and connect those in need with effective services.
