Child Welfare Trauma Training Toolkit

Adoption Competent Mental Health · https://bridges4mentalhealth.org/hub/adoption-competence/child-welfare-trauma-training-toolkit-2/

Summary: Supports caseworkers, supervisors, and all other levels of the child welfare workforce in implementing trauma-informed knowledge and skills in their daily interactions, professional services, and organizational culture. The third edition of the Child Welfare Trauma Training Toolkit (CWTTT) incorporates two foundational trainings, a specialized skills training for supervisors and caseworkers, and a supervisor consultation series to enhance transfer of learning into day-to-day practice.

Application: This toolkit supports child welfare professionals. There are a lot of resources attached to this website re: Trauma Treatments, Screening and Assessments, Psychological First Aid and SPR, and Core Curriculum on Childhood Trauma. The website also includes specific resources on Trauma-Informed Systems; Culture & Trauma; Families and Trauma; Family-Youth-Provider Partnerships; Secondary Trauma Stress; and Trauma-Informed Organizational Assessment.
