Family preservation services for adoptive and guardianship families

Adoption Competent Mental Health · https://bridges4mentalhealth.org/hub/adoption-competence/family-preservation-services-for-adoptive-and-guardianship-families/

Summary: The webinar presenters explore how systems can create or improve family preservation services that are designed specifically for adoptive and guardianship families. They share their site's experiences in building and maintaining adoptive/guardianship family preservation programs, including funding and staffing considerations, program evaluation and outcomes, and recommendations for administrators seeking to implement similar programs.

Application: This is a webinar designed for providers from child welfare supervisors, program managers, and administrators of public or private agencies that provide support services to foster and adoptive families.
