What Impacts Placement Stability

Adoption Competent Mental Health · https://bridges4mentalhealth.org/hub/adoption-competence/what-impacts-placement-stability/

This brief explores the importance of placement stability and the challenges that inhibit it. It is especially important to consider the characteristics and needs of children as well as the characteristics of the family.

This is a companion piece to *How can we improve placement stability for children in foster care?* which can also be found in the Knowledge Hub.
