Which Adoption Competency Training is Right for Me?

Adoption Competent Mental Health · https://bridges4mentalhealth.org/hub/adoption-competence/which-adoption-competency-training-is-right-for-me/

This flyer outlines the benefits and features of adoption competency trainings: NTI and TAC.

NTI and TAC

C.A.S.E. Training Institute
Empowering Professionals and Parents

Which Training is Right For Me?

nti™

Are you a mental health professional working with foster, adoptive or kinship families?

NTI is the only fully web-based training in adoption competency.

Features:

- 30-hour web-based training to address 10 competencies
- Evaluated with over 3,000 NTI graduates to assess impact on practice
- Certificates of completion, CE credits, and national recognition in the C.A.S.E. National Directory is available for NTI completers
- Available for free through C.A.S.E. learning management system

Training Approach:

Foundational learning with content based on current research, resources, and practical strategies that promote healing, healthy development, permanency, family stability and emotional well-being. Virtual coaching opportunities are also available to support transfer of learning to practice.

NTI Benefits and Features:

- Early career professionals, those new to serving this population, as well as veteran professionals gain a shared language with understanding for improved collaboration between mental health and child welfare service systems
- Self-paced and web-based for access anywhere, anytime with real life scenarios, case vignettes, reflection questions, and videos of individuals with lived and professional expertise
- Downloadable resources available for use in practice

TAC™

Are you a post master's, clinically licensed mental health professional working with foster, adoptive or kinship families?

TAC is the only accredited, evidence-based, assessment-based certificate program in adoption competency.

Features:

- 72-hour instructor-led training with clinical case consultation to address defined competencies and practice principles
- Evaluated rigorously to assess impact on clinical practice with over 3,000 TAC graduates and evaluated on effectiveness with families through 2 outcome studies
- Rated by California Evidence-based Clearinghouse for Child Welfare
- Certificate of completion, CE credits, and national recognition in the C.A.S.E. National Directory is available to TAC graduates
- Available with varying costs through licensed TAC sites in 20 states

Training Approach:

Advanced clinical training focused on building skills to address the complexities associated with adoption in ways that are proven to be more effective with adoptive families. Opportunities for group discussions, and clinical case consultations to support application of learning to practice.

TAC Benefits and Features:

- Experienced clinicians will gain in-depth understanding of core adoption issues, current clinical tools and evidence-based approaches to improve practice
- TAC graduates are a risk management asset for organizations through quality, evidence-based clinical practice
- TAC graduates are eligible for continued professional development through the C.A.S.E. Academy and the Association of TAC Professionals
