Peer Support Services Technical Assistance Center

Peer Support · https://bridges4mentalhealth.org/hub/peer-support/peer-support-services-technical-assistance-center/

Summary: The Peer Support Services Technical Assistance Center (PeerTAC) delivers training, technical assistance and consultation to mental health organizations serving people across the lifespan including children, youth, families, and adults/older adults living with mental health conditions. Our focus is on the expansion of Peer Support Services within mental health organizations.

Application: This website is for the benefit of training and providing technical assistance to peer workers in the state of New York. There are training and events that could be accessed as well as a myriad of resources that include FAQs.
