Children’s Behavioral Health – Promising Practices in Tribal Communities

Technical Assistance · https://bridges4mentalhealth.org/hub/technical-assistance/childrens-behavioral-health-promising-practices-in-tribal-communities/

Summary: A compilation of behavioral health resources for children in tribal communities. This list includes a variety of resource types including webinars, posters, web pages, policy reports, and more.

Application: These resources are made to support various audiences including school personnel, clinicians, and parents. The content helps guide these different audiences and provide them with specific strategies for supporting children in tribal communities with a variety of behavioral health concerns. The resources cover a range of settings (such as schools) and topic areas (such as depression and suicide prevention).
