Burnout in Mental Health Services: A Review of the Problem and Its Remediation

Workforce · https://bridges4mentalhealth.org/hub/workforce/burnout-in-mental-health-services-a-review-of-the-problem-and-its-remediation-2/

It is clear that burnout is a significant problem for both the child welfare and mental health workforces. This research reviews the prevalence of burnout and its impact on mental health professionals. Researchers make recommendations as to how individuals and systems can address burnout. With the demand for mental health services exceeding the providers, workforce retention is key.
