Incorporating Lived Experience Into Child Welfare Capacity Building

Engagement of Lived Experience · https://bridges4mentalhealth.org/hub/youth-family-engagement/incorporating-lived-experience-into-child-welfare-capacity-building-2-2/

This resource explores the integration of lived experience into capacity building within child welfare systems. It highlights strategies to incorporate perspectives from individuals with direct experience in child welfare services to enhance policy, practice, and service delivery. The focus is on fostering collaboration between professionals and those with lived experience to improve outcomes for children and families involved in the child welfare system.
