Meeting Notes:

Bi-weekly recurring meeting between NC and site leads. Provided update on action items from last meeting on 07/01/24. Had further discussion regarding formation of steering and implementation teams. Falon mentioned bringing in CREOKS, mental health provider. Also discussed additional MH representatives that could be brought in (Stacy and Kelly), Tim meeting with them end of July and upcoming meeting with Dr. Tessa Chesher from OK Complete Health to discuss them signing agreement as the MH partner. Discussion of development of workplan and frequency of steering team meetings to get a strong draft for the bigger group when onsite visit occurs. Bonni is willing to have more frequent meetings but doesn't want to speak for everyone.

Next steps:

1. Bonni wants clear expectations and action from the information session on 7/17
2. Bonni would like to have a date for steering team meeting at the end of session
3. Next meeting to solidify September onsite visit {45 days out for planning}
