

Tools for Screening and Assessments

- The California Evidence-Based Clearinghouse for Child Welfare provides a list of measurement tools appropriate for child welfare professionals to use in screenings and assessments, as well as a rating on each tool. To access, go to: <http://www.cebc4cw.org/assessment-tools/>
- For tools that can be used either to assess a broad range of complex trauma domains or tap into a specific domain in greater detail, see: <http://www.nctsn.org/content/standardized-measures-assess-complex-trauma> Specific measures may be appropriate for use by child welfare professionals, teachers, parents, youth, or mental health providers.
- The Administration for Children, Youth and Families offers a list of screening and assessment instruments to measure child and adolescent well-being and trauma. For recommended well-being measures, go to: http://www.acf.hhs.gov/sites/default/files/cb/well_being_earlychildhood.pdf and http://www.acf.hhs.gov/sites/default/files/cb/well_being_middlechildhood.pdf
